

HAMOMI

Children's Centre

Comprehensive Solutions

"These are not children who face one simple problem, so we do not offer one simple solution."

Raphael Etenyi, Hamomi Founder and Executive Director

Hamomi Children's Centre improves the lives of orphaned and vulnerable children in Nairobi, Kenya by developing adults with the skills necessary to improve their social and economic condition. We offer comprehensive care by creating a safe and nurturing environment through which we provide the widest array of opportunities possible.

With an entirely grassroots model, we bring you a rare opportunity to be directly connected, effective and involved in international development.

Our 3-Tiered Approach

Tier 1: The Basic

Food, shoes, clothes, medical care & social services. This alone won't end poverty, but solving pressing needs keeps students in our programs today.

Tier 2: Education

Complete and Free are key parts of education. After finishing Hamomi's Primary School, we grant scholarships to all alumni through secondary, university and technical school.

Tier 3: Sustainability

Hamomi alumni become self-reliant adults as we create a job market through social businesses, invest in their ventures, and create a culture wherein they do all of the above.
