

HAMOMI

Children's Centre

Volunteer, Teach, Play, Learn.

"The children taught me more than I could ever have hoped to teach them."
Mac Martin, Hamomi Volunteer

Hamomi Children's Centre improves orphaned and vulnerable children's lives in Nairobi by developing adults with the skills to improve their social and economic condition. We offer comprehensive care – creating a nurturing environment to provide the widest array of opportunities.

Volunteers are vital to our mission. We marry our needs with your passion and strengths. By planning directly with us, we offer host families, a supervisor in Nairobi, and cater to your trip specifications like internship requirements, group size, length of stay and time of year.

"Hamomi allows volunteers of all backgrounds to contribute. From dinners with my host family to talks with the staff about health care, to teaching math to third graders, I can't succinctly summarize all I took away from my time there."

Kevin Padrez, MS4- UC San Francisco School of Medicine

Bring Your Passion to Hamomi.

Hamomi's mission gives you freedom as a volunteer. We advocate for *comprehensive care* for our kids. So, what does that mean? YOU decide.

"I organized Hamomi's first HIV/AIDS awareness and testing workshop to educate the community. The workshops resulted in first-time testing of dozens of adults and children, Volunteering at Hamomi was the most challenging and satisfying experience of my life."

Carolyn Chen, MS2-University of Washington School of Medicine

Whatever your passion – creative writing, hiking, water sanitation, HIV/AIDS education, soccer, business development – bring it to Hamomi. We accept applicants from **all** backgrounds and levels of experience.

"These are not children who face one simple problem, so we do not offer one simple solution."

– Raphael Etenyi, Hamomi Founder
